Coastal Resilience Community Research Project

Fictional executed award agreement • Harbor Futures Research Foundation (HFRF)

Agreement reference	HFRF-DEMO-27-014 (fictional)
Sponsor	Harbor Futures Research Foundation (fictional)
Recipient	North Coast Community University (fictional)
Principal Investigator	Dr. Mira Solis (fictional)
Total award ceiling	$250,000
Effective project period	January 1, 2027 – December 31, 2028
Execution date	December 15, 2026

1.0 Purpose and scope

The Foundation awards funds to support community-based research on coastal flood preparedness, participatory mapping, and public workshops. Activities and deliverables are described in Exhibit A, which is incorporated by reference but is not included in this demonstration packet. The recipient shall not treat this agreement as approval of activities beyond the stated project purpose.

2.0 Period of performance

The project begins January 1, 2027 and ends December 31, 2028. Costs incurred outside this period require the Foundation's prior written authorization. This executed agreement controls the award period if an earlier application or internal form states different dates.

3.0 Funding and payment

The maximum award is $250,000, subject to available funds and compliance with this agreement. The Foundation will provide $125,000 after execution and receipt of a valid initial invoice, $75,000 after acceptance of the first annual progress report, and $50,000 after acceptance of the final report and final invoice. Payments do not waive review of costs or performance.

The recipient shall maintain records supporting costs charged to the award. Any amount not supported by allowable project expenditures is subject to reconciliation.

4.0 Reporting

4.1 Technical reporting: The PI shall submit quarterly progress reports within 30 calendar days after each calendar quarter. The final technical report is due within 60 calendar days after December 31, 2028. Reports shall summarize activities, progress, barriers, and community engagement.

4.2 Financial reporting: The recipient's grants finance office shall submit itemized invoices quarterly, within 45 calendar days after each quarter. The final invoice is due within 60 calendar days after the project end date.

4.3 Deliverables: The first annual progress report is due January 30, 2028. Acceptance of this report is a condition for the second scheduled payment.

5.0 Changes, carryforward and prior approvals

5.1 Changes to the project period, total award amount, or substantive scope require a written amendment signed by both parties.

5.2 Unspent funds may be carried forward between the two project years within the approved period without separate sponsor approval, provided the scope and total ceiling do not change. This clause does not authorize spending after December 31, 2028.

5.3 Rebudgeting between direct-cost categories exceeding 15% of the total award requires prior written sponsor approval.

6.0 Termination and closeout

Either party may terminate this agreement with 30 calendar days' written notice. The recipient shall stop new commitments after the effective termination date and submit a closeout accounting within 45 days. Reasonable, documented noncancelable commitments made before notice may be considered subject to Foundation review.

7.0 Intellectual property and publicity

The recipient retains ownership of pre-existing intellectual property. New project materials may be used by the Foundation for noncommercial educational purposes with attribution to the recipient. Public announcements naming the Foundation require advance written review; review is not an endorsement of scientific findings.

8.0 Records and compliance

The recipient shall retain supporting project and financial records for three years after final payment, or longer if an audit or dispute remains open. The recipient shall follow applicable institutional requirements for human participants, privacy, and information security.

9.0 Contacts and notices

Program contact: Program Officer, Harbor Futures Research Foundation (fictional role; no real contact information).

Administrative notices: Sponsored Programs Office, North Coast Community University (fictional role; no real contact information). Written notices under Sections 5 and 6 must be acknowledged by both offices.

10.0 Agreement authority and incorporated materials

This signed agreement, including the referenced Exhibit A, supersedes inconsistent dates or amounts in earlier internal intake forms. Exhibit A is not supplied in this exercise and its contents must not be inferred. No provision in this supplied agreement states whether institutional cost sharing or matching is required. Do not treat silence as an affirmative zero-dollar match determination.

EXECUTED BY AUTHORIZED REPRESENTATIVES (fictional signatures for demonstration only)
